1. Executive Summary

As of April 16, 2026, the platform hosts **142,380 registered customers** spanning 10+ countries and five customer segments. The base has grown at a compounded annual rate of approximately **24.3%** over the last four years, driven primarily by strong individual sign-ups in English-speaking markets and rapid expansion in the Indian subcontinent.

■ Three markets — USA, UK, and India — account for 52.9 % of the total customer base, making them priority regions for product localisation and compliance focus.

2. Customer Base Overview

2.1 Customer Status Distribution

Figure 2.1 — Distribution of customers by account status.

Status	Count	% Share
ACTIVE	98,420	69.1%
SUSPENDED	18,340	12.9%
PENDING	12,760	9.0%
DORMANT	8,410	5.9%
CLOSED	4,450	3.1%

2.2 Customer Type Distribution

Figure 2.2 — Customer count segmented by account type.

■ Individual accounts dominate at 62.1 % of the base. Corporate and SME together contribute 31.1 %, representing significant B2B revenue potential.

3. Demographic Analysis

3.1 Gender Distribution

Figure 3.1 — Platform-wide gender breakdown.

Gender	Count	% Share
Male	67,840	47.6%
Female	58,920	41.4%
Non-Binary	9,240	6.5%
Prefer Not to Say	6,380	4.5%

3.2 Age Group Distribution

Figure 3.2 — Age bracket segmentation of the registered customer base.

■ The 26–35 cohort is the largest segment (29.6 %), followed by 36–45 (22.3 %). These two groups together represent more than half the base and are prime targets for premium product tiers.

3.3 Average Customer Age by Country (Top 6)

Figure 3.3 — Mean customer age across top six markets.

3.4 Language Preference

Figure 3.4 — Preferred language distribution across the customer base.

4. Geographic Distribution

4.1 Top 10 Countries by Customer Count

Figure 4.1 — Geographic concentration of registered customers.

Rank	Country	Customers	% of Total
1	United States	38,200	26.8%
2	United Kingdom	19,400	13.6%
3	India	17,600	12.4%
4	Germany	11,300	7.9%
5	Canada	9,800	6.9%
6	Australia	7,400	5.2%
7	France	6,900	4.8%
8	Brazil	6,100	4.3%
9	Japan	5,200	3.7%
10	South Africa	4,100	2.9%

4.2 Active vs Inactive Customers — Top 5 Markets

Figure 4.2 — Account status split across the top five markets.

■ The United States has the highest absolute inactive count (7,000) but also the best active rate (81.7 %). India's active rate of 76.1 % indicates room for re-engagement campaigns.

4.3 Gender Split by Customer Type

Figure 4.3 — Male vs Female distribution across major customer types.

5. Customer Classification & Segmentation

5.1 Classification Type Coverage

Figure 5.1 — Number of records per classification category.

5.2 Income Band Distribution

Figure 5.2 — Breakdown of customers by self-declared or inferred income band.

Income Band	Customers	% Share
< \$25k	18,400	14.8%
\$25k-\$50k	31,200	25.0%
\$50k-\$100k	42,600	34.2%
\$100k-\$200k	21,800	17.5%
\$200k+	10,600	8.5%

■ The \$50k–\$100k band is the modal income tier (34.1 %), suggesting a middle-income-dominant base. The \$200k+ segment (8.5 %) represents significant high-net-worth opportunity.

6. Identification & Verification

6.1 Customer Identification Type Distribution

Figure 6.1 — Distribution of identification document types on record.

6.2 Proof of Identity Document Types

Figure 6.2 — Types of proof-of-identity documents submitted by customers.

Document Type	Count	% Share
Passport	41,200	32.6%
Driver License	34,600	27.4%
Utility Bill	22,400	17.7%
Bank Statement	18,900	15.0%
Gov. Letter	9,280	7.3%

■ Passport remains the most common proof of identity (32.3 %). 2,840 customers have proof-of-ID records expiring within the next 90 days and should be targeted for renewal outreach.

7. Contact & Address Intelligence

7.1 Contact Channel Distribution

Figure 7.1 — Count of registered contact channels across all customers.

Channel	Records	% with Channel
Email	128,400	90.2%
Mobile Phone	112,600	79.1%
Landline	24,300	17.1%
Work Email	38,700	27.2%
PO Box	9,100	6.4%

■ Email and mobile phone together cover 99.7 % of customers. Landline coverage has declined year-on-year. Work email at 27.2 % coverage signals significant corporate user penetration.

7.2 Monthly Address Records Added (2022–2024)

Figure 7.2 — Monthly volume of new address records across three years.

8. Growth & Trend Analysis

8.1 Annual New Customer Registrations

Figure 8.1 — Year-over-year new customer acquisition.

Year	New Customers	YoY Growth
2019	8,200	—
2020	12,400	+51.2%
2021	18,700	+50.8%
2022	24,600	+31.6%
2023	31,200	+26.8%
2024	28,900	−7.4%
2025	18,380	−36.4% (partial)

8.2 Monthly Registration Trends (2022–2024)

Figure 8.2 — Month-by-month registration volumes across three full years.

8.3 Quarterly Customer Acquisition (2022–2024)

Figure 8.3 — Quarterly breakdown of new customer acquisitions.

■ Q2 and Q3 are consistently the strongest acquisition quarters, likely driven by annual product refresh cycles and marketing campaign peaks. Q1 shows a seasonal dip across all years.

8.4 Year-over-Year Growth Rate (2022–2025)

Figure 8.4 — YoY growth rate showing peak growth in 2020–2021 and moderation thereafter.

9. Data Quality & Completeness

9.1 Customer Profile Completeness Scores

Each customer is assigned a completeness score from 1 to 6 based on the number of data entities populated: name, address, contact, identification, proof of ID, and classification.

Figure 9.1 — Distribution of completeness scores across all registered customers.

Score	Label	Customers	% Share
1	Very Low	4,200	2.9%
2	Low	8,400	5.9%
3	Moderate	18,600	13.1%
4	Good	32,400	22.8%
5	Very Good	41,800	29.4%
6	Complete	36,980	26.0%

9.2 Missing Data Summary

Data Entity	Customers Missing	% of Base
Address	4,820	3.4%
Contact Info	2,140	1.5%
Identification	6,380	4.5%
Proof of ID	9,200	6.5%
Classification	3,980	2.8%
Name Record	1,180	0.8%

■ Proof of ID has the highest gap rate (6.5 %). A targeted outreach programme to the 9,200 affected customers could raise KYC compliance from 94.7 % to near 100 %.

10. Key Insights & Recommendations

#	Finding	Recommendation	Priority
1	USA, UK & India = 52.9% of base	Localise product features and compliance workflows for these three markets.	HIGH
2	26–35 cohort is largest segment (29.6%)	Design premium tier benefits and marketing targeting millennial financial goals.	HIGH
3	9,200 customers missing Proof of ID	Launch targeted re-verification campaign before next compliance audit.	HIGH
4	Q2 & Q3 are peak acquisition quarters	Front-load marketing budget to Q2/Q3; reduce Q1 spend by 15%.	MEDIUM
5	Female customers under-represented (41.4%)	Run gender-inclusive acquisition campaigns; review UX for accessibility.	MEDIUM
6	2,840 Proof of ID records expire in 90 days	Automate renewal reminder emails at 90, 60, and 30 days before expiry.	MEDIUM
7	Landline registrations are declining	Phase out landline; pivot to WhatsApp and messaging channels.	LOW
8	4,200 customers have completeness score 1–2	Implement profile completion nudges in-app and at post-login.	MEDIUM
9	\$200k+ income band = 8.5% of base	Develop a high-net-worth product bundle; assign relationship managers.	HIGH
10	Corporate + SME = 31.1% of base	Build a dedicated B2B portal and onboarding experience.	MEDIUM

■ Acting on the HIGH priority items alone is estimated to improve KYC compliance by ~5 pp, increase active rate by ~3 pp, and open two new revenue verticals within 12 months.
